Overview:

I'm a Frontend Developer (Web/Mobile) with **over 5 years of hands-on experience**, gained through full-time roles in tech companies and independent freelance projects. I specialize in building responsive web pages and mobile applications, focusing on usability, performance, and clean code. I'm highly collaborative, communicative, and thrive in Agile development environments, working closely with cross-functional teams including designers, product managers, and backend engineers. Alongside my frontend expertise, I have foundational knowledge of backend development, databases, and server deployment, giving me a well-rounded approach to application development

Job Description:

As a Frontend Developer, I was responsible for designing, developing, and maintaining user-facing features for web and mobile applications. My role focused on building responsive, accessible, and high-performance interfaces using modern frameworks like Angular and Ionic. I collaborated closely with UX/UI designers, backend developers, and project managers to deliver seamless digital experiences. The position required continuous optimization of code quality, user interaction, and integration with backend APIs.

Skills:

Frontend: HTML, HTML5, CSS, CSS3, SCSS, Bootstrap, Angular (v2+), Angular Material, Ionic, jQuery, PrimeNG
Backend: Node.js, Express.js, Firebase
Databases: MongoDB, MySQL
Version Control: Git, GitHub, TFS
Tools: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator
Concepts: OOP, SOLID Principles, Design Patterns, Microfrontend, NGRX
Other: REST APIs, JSON, AJAX, Socket.io
Operating Systems: macOS, Linux

Professional Experience:

Associate Frontend Developer (Angular)

[Softec Technologies](#) | Feb 2024 – Present

- Developed and implemented user-friendly web interfaces using Angular and TypeScript.
- Translated Figma UI designs into responsive HTML/CSS layouts.
- Fixed UI bugs and enhanced existing frontend features.
- Collaborated with QA and backend teams to deliver clean releases.
- Utilized TFS for version control and participated in agile development sprints.

Frontend Developer (Syaaraat)

[First Tech](#) | Oct 2022 – Nov 2023

- Created new pages for the Syaaraat platform based on DX designs.
- Enhanced the frontend performance and improved user experience.
- Maintained UI consistency across browsers and devices.
- Fixed frontend bugs and worked on usability enhancements.

Web/Mobile Developer (Angular/Ionic)

[Tilde Tech](#) | Aug 2021 – Oct 2022

- Developed hybrid mobile app pages for ElZatoonah using Ionic.
- Published updates to Google Play and Apple App Store.
- Converted Adobe XD designs into live, responsive UI.
- Worked on both web and mobile enhancements and bug fixes.

Ionic Developer

Primo Application | 2020 (3 months)

- Enhanced and maintained the Primo mobile application.
- Fixed UI and logic bugs using Ionic framework.
- Performed code cleanups and contributed to smoother app flow.

Web Designer

[@Designs Agency](#) | 2018 (6 months)

- Designed and developed responsive website layouts.
- Fixed UI/UX design issues and improved user flow.
- Integrated basic frontend code and collaborated with backend team.

Freelance & Personal Projects:

- Owner of **Pingo Pro Game** – Full-stack Angular/Node.js game app (Live: pingo-pro-game.com)
- **Glow-Up 2 Applications** – Ionic-based beauty booking app (Freelance)
- E-Commerce sample project [Demo](#)
- C# Desktop App with MySQL [Code](#), [YouTube](#)
- NGRX CRUD [Example Project](#)
- MEAN Stack + Ionic School App [Code](#) [Youtube](#)
- Ionic + Firebase Store Integration [YouTube](#)
- **Micro Frontend Demo** – Angular modular architecture sample [[GitHub](#)]
- DotNet Swagger API with Angular [Code](#)
- *More Samples: [GitHub.com/TaherJsStack](https://github.com/TaherJsStack)*

Education:

Bachelor's Degree in Management Information Systems

Advanced Academy Institute - El-Haram

Languages:

- Arabic – Mother tongue
- English – Good

Certificates:

- **Angular & TypeScript Advanced** – Completed advanced Angular concepts including RxJS and component communication.
- **Node.js & Express Backend API Development** – Built RESTful APIs and integrated with MongoDB and Firebase
- **Ionic Framework for Mobile Apps** – Developed and deployed hybrid apps using Ionic and Capacitor.
- **Clean Code & SOLID Principles** – Focused on maintainable, scalable front-end architecture.
